IBRO Publications Committee

Chairman, A. D. SMITH; M. ITO, E. R. KANDEL, P. G. KOSTYUK, K. KRNJEVIĆ, R. LLINÁS, D. RICHTER.

Aims and Scope:

Neuroscience publishes papers describing the results of original research on any aspect of the scientific study of the nervous system. Since one of the chief aims of the journal is to promote communication between neuroscientists, the type of paper most suitable for publication is that in which new observations are clearly and succinctly reported and in which the purpose of the study is made meaningful to scientists of other disciplines. Any paper, however short, will be considered for publication provided that it reports significant, new and carefully confirmed findings with full experimental details. For *Instructions to Authors* see Vol. 28, No. 1, pp. i–iii.

Production Editor: H. M. MALONE. *Editorial Assistant:* S. J. RUSSELL.

Publishing, Subscription and Advertising Offices: Headington Hill Hall, Oxford OX3 0BW (Oxford 64881).
Published eighteen per annum (six volumes 1990).
Annual institutional rate (1990) DM 3255.00.
Two-year institutional rate (1990/91) DM 6184.50.
Personal subscription rate for those whose library subscribes at the regular rate (1990) DM 231.
Prices are subject to change without notice.
Members of the International Brain Research Organization may order personal subscriptions at a concessional rate and details of these rates are available on request. Airmail Subscription extra. Subscription enquiries from customers in North America should be sent to: Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A., and for the remainder of the world to: Pergamon Press plc, Headington Hill Hall, Oxford OX3 0BW, U.K.

Back issues of all previously published volumes, in both hard copy and on microform, are available direct from Pergamon offices.

LIST OF CONTENTS

VOLUME 32 NUMBER 1 — 1989

M. L. Shapiro, D. K. Simon, D. S. Olton, F. H. Gage III, O. Nilsson and A. Björklund	Intrahippocampal grafts of fetal basal forebrain tissue alter place fields in the hippocampus of rats with fimbria–fornix lesions	1
S. C. Mangel, M. Ariel and J. E. Dowling	D-Aspartate potentiates the effects of both L-aspartate and L-glutamate on carp horizontal cells	19
H. Ikeda, C. D. Kay and J. Robbins	Properties of excitatory amino acid receptors on sustained ganglion cells in the cat retina	27
J. W. Geddes, S. M. Cooper, C. W. Cotman, S. Patel and B. S. Meldrum	*N*-Methyl-D-aspartate receptors in the cortex and hippocampus of baboon (*Papio anubis* and *Papio papio*)	39
J. T. Hackett, S. L. Cochran and L. J. Greenfield Jr	Quantal transmission at Mauthner axon target synapses in the goldfish brainstem	49
A. Janetzko, H. Zimmermann and W. Volknandt	Intraneuronal distribution of a synaptic vesicle membrane protein: antibody binding sites at axonal membrane compartments and *trans*-Golgi network and accumulation at nodes of Ranvier	65
T. Kaneko, K. Itoh, R. Shigemoto and N. Mizuno	Glutaminase-like immunoreactivity in the lower brainstem and cerebellum of the adult rat	79
T. Takeda and K. Maekawa	Transient direct connection of vestibular mossy fibers to the vestibulocerebellar Purkinje cells in early postnatal development of kittens	99
P. van Mier, J. Armstrong and A. Roberts	Development of early swimming in *Xenopus laevis* embryos: myotomal musculature, its innervation and activation	113
M. V. Ugrumov, E. V. Proshlyakova and A. Sapronova	Development of the hypothalamic 5-hydroxytryptamine system during ontogenesis in rats: uptake and release of 5-hydroxytryptamine *in vitro*	127
I. Reisert, V. Han, S. Hartwig, G. Ahnert-Hilger and Ch. Pilgrim	Rapid maturation of synaptic functions of prenatal serotoninergic neurons in short-term cultures: absence of sex differences and hormone effects	133
T. Wichmann, N. Limberger and K. Starke	Release and modulation of release of serotonin in rabbit superior colliculus	141
S. Kemplay and K. E. Webster	A quantitative study of the projections of the gracile, cuneate and trigeminal nuclei and of the medullary reticular formation to the thalamus in the rat	153
K. A. Sharkey, J. A. Sobrino, F. Cervero, A. Varro and G. J. Dockray	Visceral and somatic afferent origin of calcitonin gene-related peptide immunoreactivity in the lower thoracic spinal cord of the rat	169
A. Lesur, P. Gaspar, C. Alvarez and B. Berger	Chemoanatomic compartments in the human bed nucleus of the stria terminalis	181
M. H. Joseph, H. Hodges and J. A. Gray	Lever pressing for food reward and *in vivo* voltammetry: evidence for increases in extracellular homovanillic acid, the dopamine metabolite, and uric acid in the rat caudate nucleus	195
M. A. Ariano	Long-term changes in striatal D_1 dopamine receptor distribution after dopaminergic deafferentation	203

I. J. Mitchell, C. E. Clarke, S. Boyce, R. G. Robertson, D. Peggs, M. A. Sambrook and A. R. Crossman	Neural mechanisms underlying parkinsonian symptoms based upon regional uptake of 2-deoxyglucose in monkeys exposed to 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine	213
S. M. Jamieson and M. C. Harris	Stimulation of carotid body chemoreceptors does not influence the discharge of A1 neurons projecting to the forebrain	227
B. Mazet, J. P. Miolan, J. P. Niel, Y. Julé and C. Roman	Modulation of synaptic transmission in the rabbit coeliac ganglia by gastric and duodenal mechanoreceptors	235
D. L. Barber, A. M. J. Buchan, S. E. Leeman and A. H. Soll	Canine enteric submucosal cultures: transmitter release from neurotensin-immunoreactive neurons	245
R. Amann, J. Donnerer and F. Lembeck	Capsaicin-induced stimulation of polymodal nociceptors is antagonized by Ruthenium Red independently of extracellular calcium	255
A. D. Kondratyev, E. E. Zotova, B. V. Loginov, M. L. Tsirenina, E. I. Melnik and E. S. Severin	Production and immunohistochemical characterization of primary cultures of human embryo brain cells	261
A. H. S. Hassan, O. F. X. Almeida, Ch. Gramsch and A. Herz	Immunocytochemical demonstration of opioid receptors in selected rat brain areas and neuroblastoma × glioma hybrid (NG108-15) cells using a monoclonal anti-idiotypic antibody	269
SOFTWARE SURVEY SECTION		I

VOLUME 32 NUMBER 2 1989

M. Österlund, B. Fontaine, A. Devillers-Thiery, B. Geoffroy and J.-P. Changeux	Acetylcholine receptor expression in primary cultures of embryonic chick myotubes—I. Discoordinate regulation of α-, γ- and δ-subunit gene expression by calcitonin gene-related peptide and by muscle electrical activity	279
J. Kirilovsky, A. Duclert, B. Fontaine, A. Devillers-Thiery, M. Österlund and J.-P. Changeux	Acetylcholine receptor expression in primary cultures of embryonic chick myotubes—II. Comparison between the effects of spinal cord cells and calcitonin gene-related peptide	289
J. Jiménez-Castellanos and A. M. Graybiel	Compartmental origins of striatal efferent projections in the cat	297
J. M. Burgunder and W. S. Young III	Distribution, projection and dopaminergic regulation of the neurokinin B mRNA-containing neurons of the rat caudate-putamen	323
C. Waeber and J. M. Palacios	Serotonin-1 receptor binding sites in the human basal ganglia are decreased in Huntington's chorea but not in Parkinson's disease: a quantitative *in vitro* autoradiography study	337
C.-F. Zhou, Y. Li and G. Raisman	Embryonic entorhinal transplants project selectively to the deafferented entorhinal zone of adult mouse hippocampi, as demonstrated by the use of Thy-1 allelic immunohistochemistry. Effect of timing of transplantation in relation to deafferentation	349
Y. Nakagawa and M. Baudry	Dissociation between changes in glutamate receptor binding sites and their coupling to phosphatidylinositol metabolism following intrahippocampal colchicine injection	363

K. Ellrén and **A. Lehmann**	Calcium dependency of *N*-methyl-D-aspartate toxicity in slices from the immature rat hippocampus	371
B. B. Stanfield	The distribution of hippocampal and spinal projecting cells in the locus coeruleus of tottering mice	381
E. R. Korpi and **M. Uusi-Oukari**	$GABA_A$ receptor-mediated chloride flux in brain homogenates from rat lines with differing innate alcohol sensitivities	387
A. Malgaroli, P. DeCamilli and **J. Meldolesi**	Distribution of αlatrotoxin receptor in the rat brain by quantitative autoradiography: comparison with the nerve terminal protein, synapsin I	393
M. Takemura, H. Kiyama, H. Fukui, M. Tohyama and **H. Wada**	Distribution of the ω-conotoxin receptor in rat brain. An autoradiographic mapping	405
P. L. Woodhams and **M. Webb**	A developmentally regulated axonal glycoprotein (7-8D2 antigen) with a restricted distribution in mature rat brain	417
D. V. Pow and **J. F. Morris**	Dendrites of hypothalamic magnocellular neurons release neurohypophysial peptides by exocytosis	435
Gong Ju and **Shaojun Liu**	The relationship of substance P-immunoreactive nerve fibers to thyrotropes and corticotropes in the pars distalis of the anterior pituitary in the monkey	441
M. Lamacz, C. Hindelang, M. C. Tonon, H. Vaudry and **M. E. Stoeckel**	Three distinct thyrotropin-releasing hormone-immunoreactive axonal systems project in the median eminence–pituitary complex of the frog *Rana ridibunda*. Immunocytochemical evidence for co-localization of thyrotropin-releasing hormone and mesotocin in fibers innervating pars intermedia cells	451
M. A. Matthews, T. V. Hernandez, A. I. Romanska and **K. D. Hoffman**	Golgi and immunocytochemical analysis of neurons in trigeminal subnucleus interpolaris: correlations with cellular localization of enkephalin	463
R. A. Leslie, K. M. Murphy and **H. A. Robertson**	Nodose ganglionectomy selectively reduces muscarinic cholinergic and delta opioid binding sites in the dorsal vagal complex of the cat	481
C. O'Brien, C. J. Woolf, M. Fitzgerald, R. M. Lindsay and **C. Molander**	Differences in the chemical expression of rat primary afferent neurons which innervate skin, muscle or joint	493
J. Lang and **R. Schulz**	Chronic opiate receptor activation *in vivo* alters the level of G-protein subunits in guinea-pig myenteric plexus	503
M. M. L. Tan and **A. R. Harvey**	The cholinergic innervation of normal and transplanted superior colliculus in the rat: an immunohistochemical study	511
H. Bernstein-Goral and **M. C. Bohn**	Phenylethanolamine *N*-methyltransferase-immunoreactive terminals synapse on adrenal preganglionic neurons in the rat spinal cord	521
H. Koike, H. Matsumoto and **Y. Umitsu**	Selective axonal transport in a single cholinergic axon of *Aplysia*—role of colchicine-resistant microtubules	539

VOLUME 32 NUMBER 3 1989

COMMENTARY

J. Sawynok and M. I. Sweeney — The role of purines in nociception — 557

RESEARCH PAPERS

J. D. Levine and Y. O. Taiwo — Involvement of the mu-opiate receptor in peripheral analgesia — 571

Y. O. Taiwo, L. K. Bjerknes, E. J. Goetzl and J. D. Levine — Mediation of primary afferent peripheral hyperalgesia by the cAMP second messenger system — 577

S. M. Louis, A. Jamieson, N. J. W. Russell and G. J. Dockray — The role of substance P and calcitonin gene-related peptide in neurogenic plasma extravasation and vasodilatation in the rat — 581

K. L. R. Jansen, R. L. M. Faull and M. Dragunow — Excitatory amino acid receptors in the human cerebral cortex: a quantitative autoradiographic study comparing the distributions of [^{3}H]TCP, [^{3}H]glycine, L-[^{3}H]glutamate, [^{3}H]AMPA and [^{3}H]kainic acid binding sites — 587

M. S. Lidow, P. S. Goldman-Rakic, D. W. Gallager, D. H. Geschwind and P. Rakic — Distribution of major neurotransmitter receptors in the motor and somatosensory cortex of the rhesus monkey — 609

F. Pedata, P. L. Di Patre, M. G. Giovannini, M. Pazzagli and G. Pepeu — Cholinergic and noradrenergic denervations decrease labelled purine release from electrically stimulated rat cortical slices — 629

E. Carboni and G. Di Chiara — Serotonin release estimated by transcortical dialysis in freely-moving rats — 637

M. Kokaia, P. Kalén, J. Bengzon and O. Lindvall — Noradrenaline and 5-hydroxytryptamine release in the hippocampus during seizures induced by hippocampal kindling stimulation: an *in vivo* microdialysis study — 647

H. Kaba, A. Rosser and B. Keverne — Neural basis of olfactory memory in the context of pregnancy block — 657

G. Olmos, F. Naftolin, J. Perez, P. A. Tranque and L. M. Garcia-Segura — Synaptic remodeling in the rat arcuate nucleus during the estrous cycle — 663

M. Sallanon, M. Denoyer, K. Kitahama, C. Aubert, N. Gay and M. Jouvet — Long-lasting insomnia induced by preoptic neuron lesions and its transient reversal by muscimol injection into the posterior hypothalamus in the cat — 669

D. F. Wozniak, G. R. Stewart, S. Finger and J. W. Olney — Comparison of behavioral effects of nucleus basalis magnocellularis lesions and somatosensory cortex ablation in the rat — 685

G. Ransmayr, P. Cervera, E. Hirsch, M. Ruberg, L. B. Hersh, C. Duyckaerts, J.-J. Hauw, C. Delumeau and Y. Agid — Choline acetyltransferase-like immunoreactivity in the hippocampal formation of control subjects and patients with Alzheimer's disease — 701

C. R. Abraham, D. J. Selkoe, H. Potter, D. L. Price and L. C. Cork — α_1-Antichymotrypsin is present together with the β-protein in monkey brain amyloid deposits — 715

N. E. J. Berman and B. R. Payne — Modular organization of ON and OFF responses in the cat lateral geniculate nucleus — 721

D. P. M. Northmore — Quantitative electrophysiological studies of regenerating visuotopic maps in goldfish—I. Early recovery of dimming sensitivity in tectum and torus longitudinalis — 739

D. P. M. Northmore	Quantitative electrophysiological studies of regenerating visuotopic maps in goldfish—II. Delayed recovery of sensitivity to small light flashes	749
C. Gotti, A. Esparis Ogando and **F. Clementi**	The α-bungarotoxin receptor purified from a human neuroblastoma cell line: biochemical and immunological characterization	759
D. L. Cameron and **A. D. Crocker**	Localization of striatal dopamine receptor function by central injection of an irreversible receptor antagonist	769
K. Sugiyama, A. Brunori and **M. L. Mayer**	Glial uptake of excitatory amino acids influences neuronal survival in cultures of mouse hippocampus	779
J. Tiihonen, M. Kajola and **R. Hari**	Magnetic mu rhythm in man	793
S. G. Spence and **J. A. Robson**	An autoradiographic analysis of neurogenesis in the chick retina *in vitro* and *in vivo*	801
G. E. Duncan, O. Brüstle, C. Heiss, G. R. Breese and **W. E. Stumpf**	Topographical assessment of accumulated radioactivity from [^{14}C]2-deoxyglucose and [6-^{14}C]glucose in rat forebrain at different survival periods	813
S. Alaranta, H. Uusitalo, E. Klinge, A. Palkama and **N. O. Sjöstrand**	Histochemical demonstration of nerve cell bodies in the retractor penis muscle and the penile artery of the bull	823

RESEARCH PAPERS		
S. H. Hauger, K. J. Book and D. K. Morest	Trophic support of the developing cochleovestibular ganglion by its peripheral target *in vitro* does not depend on neuronal cell division	241
I. W. Borowsky and R. C. Collins	Histochemical changes in enzymes of energy metabolism in the dentate gyrus accompany deafferentation and synaptic reorganization	253
J. A. Boening, I. S. Kass, J. E. Cottrell and G. Chambers	The effect of blocking sodium influx on anoxic damage in the rat hippocampal slice	263
R. Mas, R. Menéndez, A. Garateix, M. Garcia and M. Chávez	Effects of a high molecular weight toxin from *Physalia physalis* on glutamate responses	269
M. de Curtis, R. Spreafico and G. Avanzini	Excitatory amino acids mediate responses elicited *in vitro* by stimulation of cortical afferents to reticularis thalami neurons of the rat	275
S. A. Eaton and T. E. Salt	Modulatory effects of serotonin on excitatory amino acid responses and sensory synaptic transmission in the ventrobasal thalamus	285
D. Becquet, M. Faudon and F. Hery	Effect of thalamic parafascicularis nucleus stimulation in regulation of serotoninergic transmission in the cat caudate nucleus: involvement of autoreceptors in the dorsalis raphe nucleus	293
G. Chazal and W. Ma	An ultrastructural analysis of serotoninergic neurons in the nucleus raphe magnus of the rat	301
K. J. Campbell and M. Takada	Bilateral tectal projection of single nigrostriatal dopamine cells in the rat	311
J. D. Elsworth, A. Y. Deutch, D. E. Redmond Jr, J. R. Taylor, J. R. Sladek Jr and R. H. Roth	Symptomatic and asymptomatic 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine-treated primates: biochemical changes in striatal regions	323

A. Wada, Y. Uezono, M. Arita, K. Tsuji, N. Yanagihara, H. Kobayashi and **F. Izumi**	High-affinity and selectivity of neosurugatoxin for the inhibition of ^{22}Na influx via nicotinic receptor–ion channel in cultured bovine adrenal medullary cells: comparative study with histrionicotoxin	333
F. Darchen, Y. Masuo, M. Vial, W. Rostene and **D. Scherman**	Quantitative autoradiography of the rat brain vesicular monoamine transporter using the binding of [^{3}H]dihydrotetrabenazine and 7-amino-8-[^{125}I]iodoketanserin	341
P. A. Carr, T. Yamamoto, W. A. Staines, M. E. Whittaker and **J. I. Nagy**	Quantitative histochemical analysis of cytochrome oxidase in rat dorsal root ganglia and its co-localization with carbonic anhydrase	351
P. A. Carr, T. Yamamoto, G. Karmy, K. G. Baimbridge and **J. I. Nagy**	Analysis of parvalbumin and calbindin D28k-immunoreactive neurons in dorsal root ganglia of rat in relation to their cytochrome oxidase and carbonic anhydrase content	363
R. M. Villalba, J. Rodrigo, F. J. Alvarez, M. Achaval and **R. Martinez-Murillo**	Localization of C-PON immunoreactivity in the rat main olfactory bulb. Demonstration that the population of neurons containing endogenous C-PON display NADPH–diaphorase activity	373
C. Konradi, J. Kornhuber, L. Froelich, J. Fritze, H. Heinsen, H. Beckmann, E. Schulz and **P. Riederer**	Demonstration of monoamine oxidase-A and -B in the human brainstem by a histochemical technique	383
M. Kawata, M. Hirakawa, K. Kumamoto, N. Minamino, K. Kangawa, H. Matsuo and **Y. Sano**	Brain natriuretic peptide in the porcine spinal cord: an immunohistochemical investigation of its localization and the comparison with atrial natriuretic peptide, substance P, calcitonin gene-related peptide, and enkephalin	401
M. S. Herness	Vasoactive intestinal peptide-like immunoreactivity in rodent taste cells	411
S. Ochs, R. A. Jersild Jr and **J.-M. Li**	Slow transport of freely movable cytoskeletal components shown by beading partition of nerve fibers in the cat	421
BOOK REVIEW **I. M. L. Donaldson**	*Movements of the Eyes* by R. H. S. Carpenter	431
